INDEPENDENT AUDITOR'S REPORT ON INTERNAL
ACCOUNTING CONTROL REQUIRED BY SEC RULE 17a-5

Board of Directors and Stockholders
Dale K. Ehrhart, Inc.
Venice, Florida

In planning and performing our audit of the financial statements and supplementary information of Dale K. Ehrhart, Inc. for the years ended December 31, 2005 and 2004, we considered its internal control, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission, we have made a study of the practices and procedures followed by Dale K. Ehrhart, Inc. including tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g); in making the periodic computations of aggregate indebtedness and net capital under Rule 17a-3(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in making quarterly securities examinations, counts, verifications, and comparisons, and the recording of differences required by Rule 17a-13 or in complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining an internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling the responsibility, estimates and judgments by management are required to assess the expected benefits and the related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's abovementioned objectives. Two of the objectives of an internal control and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statements in conformity with accounting principals generally accepted in the United States of America. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, errors or irregularities may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the

effectiveness of their design and operation may deteriorate. Our consideration of internal control would not necessarily disclose all matters in the internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control components does not reduce to a relatively low level the risk that errors or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving internal control, including control activities for safeguarding securities that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities and Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2005 and 2004 to meet the Commission's objectives.

This report is intended solely for the information and use of management, the Securities and Exchange Commission, the New York Stock Exchange, the National Association of Securities Dealers (NASD), and other regulatory agencies which rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
